

Summary for children and young people

Name of children's home: Grace House

URN: 2556128

Date of inspection: 26 May 2021

Dear *****, *****, and *****

I hope this letter finds you all happy and healthy. Thank you all for making me feel so welcome when I visited Grace House, I really enjoyed our little chats.

During my visit I spoke to yourselves, and people who support you at Grace house. I also spoke to some social workers and teachers. Everyone who I spoke to spoke so positively about you all and recognise the progress you are making. This is amazing, well done!

I think Richard and all of the adults at Grace house try really hard to make it a nice place for you to live. They are really good at making sure other people who make decisions about your future understand what you want. They are keen for you to attend school so you can get the job you want.

The adults really care about your health. It was lovely to listen to the adults talk about all the yummy food you cook, they really value your differences and learning about the country's where your family members grew up.

I was really pleased to hear that you all feel safe and that the adults support you to see people who are important to you.

Keep up all the good work. ***** I hope I get to hear a sound track of you rapping, ***** keep up with the football training and who knows I might see you playing for the premiership, and ***** you might produce the next amazing game for PlayStation and xbox, the world is your oyster so believe In yourselves.

Take care

Helen
